Slide 7

Why are native people at increased risk

- Impacts of historical and continuing trauma
- Community and tribal organization

---

---

---

---

---

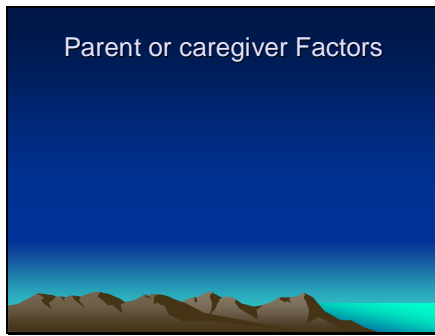

---

---

---

Slide 8

Parent or caregiver Factors

Slide 26

Treat our native communities at increased risk

- Impacts of historical and continuing trauma
- Community and tribal organization

A dark blue gradient background with a silhouette of mountains at the bottom. The mountains are rendered in a simple, blocky style with varying shades of brown and tan.

---

---

---

---

---

---

---

---

Slide 27

Treatment of historical trauma and continuing trauma

A dark blue gradient background with a silhouette of mountains at the bottom. The mountains are rendered in a simple, blocky style with varying shades of brown and tan.

---

---

---

---

---

---

---

---

Slide 28

Community and tribal organization

- Creating communities and services of safety

---

---

---

---

---

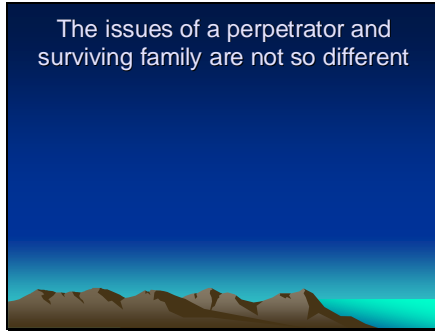

---

---

---

Slide 29

The issues of a perpetrator and surviving family are not so different

---

---

---

---

---

---

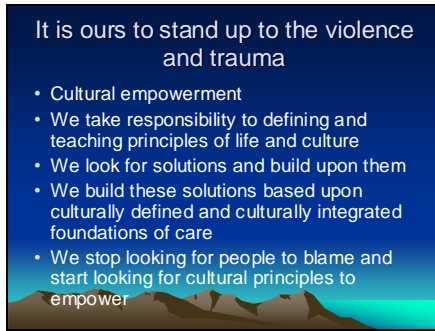

---

---

Slide 30

It is ours to stand up to the violence and trauma

- Cultural empowerment
- We take responsibility to defining and teaching principles of life and culture
- We look for solutions and build upon them
- We build these solutions based upon culturally defined and culturally integrated foundations of care
- We stop looking for people to blame and start looking for cultural principles to empower

---

---

---

---

---

---

---

---

Slide 31

We find whom we were intended to be as a people

- We promote our teachings of culture that have utility in promoting family wellness
- We separate principles of culture from a modern experience of victimization and violence
- We take on the challenge of the seventh generation; building who we will be as a successful people and culture in our own land and country

---

---

---

---

---

---

---
