The opinions, findings, and conclusions or recommendations expressed in this product are those of the contributors and do not necessarily represent the official position or policies of the U.S. Department of Justice"

What is Sustainability?

Relating to or being a method of harvesting or using a resource so that the resource is not depleted or permanently damaged.

(Merriam-Webster, 2009)

Simply Put

"Sustainability is about maintaining and continuing program services over a long time period and having the needed services become a permanent part of community resources"

From – Sustainability Toolkit for Indian Communities – American Indian Development Associates, 2003

OVC established the AI/AN SANE-SART Initiative in 2010 to address the comprehensive needs of tribal victims of sexual assault, with the ultimate goal of institutionalizing sustainable and evidence-based practices adapted for the needs of tribal communities to help foster dignity and spiritual, mental, and physical health in victims of sexual assault.

Discussion for your SART

- What is to be sustained?
- Why should it be sustained?
- Who's responsible for sustaining it?
- How will it be sustained?
- What's needed in order to sustain it?
- What type of planning is needed?
- When will this plan begin?
- How will we know we are being successful?

What is to be Sustained?

- Positive changes made
- Policies and protocols developed
- Attitudes and community perceptions
- Improved response to victims
- Improved collaboration between responders
- Trust from community stakeholders
- Momentum built
- Other

 We often think sustainability is only about financial resources.

Sustainability Beyond Dollars

- Political Support
- Partnerships
- Incentives to maintain buy-in
- Organizational capacity
- Program Evaluation/data collection
- Program Adaptation
- Communication/Education
- Strategic Plan/Logic Model

 Sexual Assault Forensic and Clinical Management Virtual Practicum DVD (http://www.iafn.org/displaycommon.cfm?an=1&subarticle nbr=174).

And yes, funding stability is part of the equation

Sustainability Challenge in Tribal Communities

- Greater need for many resources
- Don't have the tax base to rely upon
- Financial resources are limited
- Historically day to day subsistence was priority
- Financial planning for the future was rare

Developing a Sustainability Plan & Self Assessment

- Create a Sustainability Sub-Committee
- Address sustainability on SART meeting agendas
- Conduct internal audit expense/resource analysis
- Determine and access program resources
- Set goals and objectives of sustainability plan
- Reach out to supporters & develop community outreach plan with goal, action steps to meet the objective, by whom, by when and date for completion

Fundraising Plan

- Locally, state, federal grants
- Market products
- Donations
- Fundraising events
- Other

A Note About Use of Federal Funds

Federal grant funds cannot be used to support fundraising activities. For more information see p. 94, Section 3.13 of the 2014 OJP *Financial Guide* for additional information on these restrictions.

Summary

- Important to institutionalize SANE/SART practice
- Garner broad base community support
- Sustainability beyond financial support
- OVC SANE SART grant goals & objectives for Year 4 include developing a sustainability plan
- TLPI can assist with developing a framework for developing a sustainability plan if you need
